

Scenario one

Characters:		Scenario:
James	James is 14 years old and plays football at a local club.	<p>It's lunch break at school and James and Sarah are on their way to the shop to get their lunch. While they're walking, Sarah brings out a pack of cigarettes. James is shocked and asks her what she's doing. Sarah laughs at James and tells him it's not a big deal, everyone is doing it and he should try one. James doesn't want to and says no.</p> <p>Craig walks past and asks Sarah if she has a spare cigarette. Sarah gives him one and Craig asks James why he isn't smoking. James is obviously uncomfortable but continues to refuse a cigarette. He tells them he wants to be as fit as he can be so he can have a future in football. Craig and Sarah laugh and tell him that a few cigarettes won't make any difference. Craig turns to Sarah and invites her over to the park where people who smoke go to hang out. James feels left out.</p>
Sarah	Sarah is 14 years old and a good friend of James. Sarah has recently started smoking.	
Craig	Craig is 15 years old and attends the same school as James and Sarah. Craig knows Sarah through mutual friends but doesn't really know James other than seeing him in school.	

Scenario two

Characters:		Scenario:
Paula	Paula is 16 years old and recently moved to a new area and has been spending time with a group of girls in her year. She is saving up for driving lessons when she turns 17 in a few months.	<p>Paula, Tasha and Sophie are walking to school one morning. They are having a laugh and as they walk past the local shop, Tasha and Sophie go into their school bags and bring out their purses.</p> <p>Tasha tells Sophie she has £5 and Sophie says she only has £2.50. The cigarettes they want to buy are £12.60 so they need another £5.10. They ask Paula if she could chip in £5.10 and tell her she will be able to share the cigarettes with them.</p> <p>Paula doesn't smoke but also has just made new friends and really likes them. She does have the money but doesn't want to waste it. She tells them she is trying to save up for driving lessons but the other girls laugh and tell her it's only a fiver!</p>
Sophie	Sophie is 16 years old, she lives next door to Paula and is in her year. Paula smokes.	
Tasha	Tasha is 16 years old, in the same year as Sophie and Paula and also smokes.
